

Interpretation of In-clinic results

Do you have in-clinic results that you would like interpreted? If you are an SVS client or have a Zoetis analyser you can email a copy of the results with history, signalment and any other relevant information to us and get a written interpretation sent back.

Email results to: info@svslabs.nz

In the subject line add: Interpretation

Turn-around-time is 3 to 4 hours if the results are received within working hours.

Urgent case?

Urgent interpretations should be marked as such in the subject line. It is also a good idea to phone the lab (07.444.5101 or 0800.787.522) and give us a heads-up so that we know to watch for it.

Send	To	info@svslabs.nz
	Cc	
Subject		Interpretation

SIGNALMENT: F/M, intact or neutered, **age**, breed

HISTORY: Organ system(s) involved, presenting complaint, etc

Other relevant information or specific question you would like us to answer:
